SUMMARY

Data Analyst with hands-on experience in **Python, SQL, Power BI, and data analytics**, specializing in **data cleaning, exploratory data analysis, business intelligence, and dashboard development**. Skilled in transforming complex datasets into actionable business insights through data visualization and analytical problem-solving. Strong foundation in software development, machine learning, database management, Agentic AI, and RAG, with experience building end-to-end data and AI solutions.

SKILLS

- **Programming:** Python, SQL
- **Frontend:** React, HTML, CSS, Tailwind CSS
- **Business Intelligence:** Power BI, DAX (Basic)
- **Data Analytics:** EDA, Data Cleaning, Data Visualization, Business Intelligence, Microsoft Excel
- **Data Science:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
- **Databases:** PostgreSQL, MongoDB
- **AI Technologies:** Agentic AI, RAG
- **Tools & DevOps:** Git, Docker, MLflow, CI/CD

PROJECTS

Enterprise Digital Twin & Decision Intelligence Platform

Self-Initiated Project | Dec 2025 – Jul 2026

- Developed an Enterprise Digital Twin & Decision Intelligence Platform for predictive analytics, simulation, and intelligent decision support.
- Built scalable machine learning pipelines and REST APIs, integrating Agentic AI and RAG for enterprise knowledge retrieval.
- Implemented MLOps practices including experiment tracking, automated testing, CI/CD, Docker, and Kubernetes deployment.
- Followed production-grade software engineering principles with modular architecture, monitoring, and reliability-focused development.

Customer Purchase Behavior Analytics

Self-Initiated Project | Jul 2026 – Aug 2026

- Performed Exploratory Data Analysis (EDA) on retail customer purchase data using Python, Pandas, NumPy, Matplotlib, and Seaborn.
- Wrote SQL queries to analyze customer behavior, sales trends, and revenue insights.
- Built an interactive Power BI dashboard featuring KPIs, customer segmentation, and business visualizations.
- Published the complete end-to-end data analytics project on GitHub with comprehensive documentation.

EDUCATION

B.Tech in Computer Science and Engineering

Allenhouse Institute of Technology, Kanpur, India

Expected 2027

CERTIFICATIONS

- British Airways Data Science Virtual Experience – Forage (2026)
- BCG X Data Science Virtual Experience – Forage (2026)

LANGUAGES

Hindi — Native

English — Professional Working Proficiency
